04th March Final

Any card not returned in the computer which does not indicate that the computer was down will NOT count in the league.

If we get one day's play in any of our qualifying weekends then the scores will count from that weekend towards the league and it will be good or bad luck if your team is out on the day or not.

At the end of the league stages the top 8 teams will move forward to the matchplay knockout stages.

In the event that there is a tie for knockout places then the decision will be based on the 6th card on the final weekend followed by the 7th card. If that does not split then it goes to the 6th card of the previous week etc, till we get a decision.

The quarter final, semi-final and final will be played over 18 holes matchplay.

The format of the matchplay stages will be as follows:

- 3 Single Matches
- 2 Fourball Match

Lowest handicap (**handicap index**) plays first singles, next lowest plays second singles and third lowest plays third singles. The next two lowest will play the first Fourball match and the final two play the second Fourball match. In the event that you are missing players on the day of a match you fill the matches in the above order with the players you have on the day meaning it is always the last Fourball that would be short.

In the event that you have 2 players missing for a match you may decide to play both fourballs with one player in each or drop the bottom match.

The handicaps for matchplay are the current playing handicaps so if you have two or more with the same playing handicap (**handicap index**) the team can decide who plays first and second etc.
